

## DATA SHEET BALL BEARING HINGES

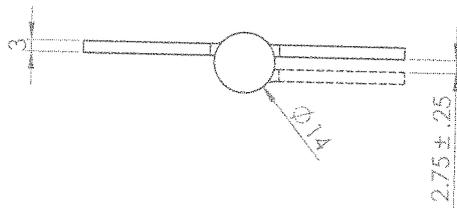

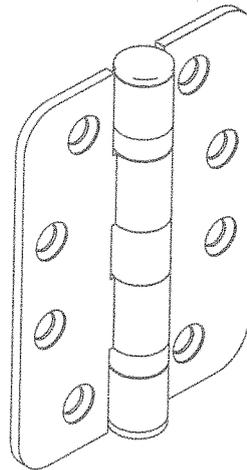

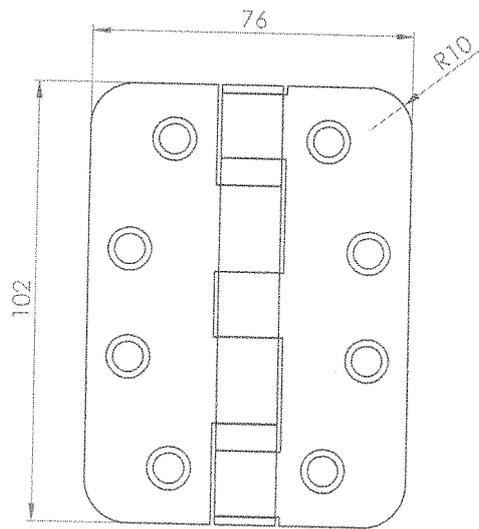

The Eurospec Enduro 102mm ball bearing Hinge is designed and tested to be used on 44mm doors. It is CE marked and tested to grade 13 (BS EN 1935 : 2002).

### Fire door applications

In fire door applications , 3 hinges must be fitted to each door and in openings rated more than 20 minute, intumescent liner pads should be used behind the hinge leaves. If using the Eurospec INT1433 liner; 1 should be placed behind each leaf for 30 minute doors and 2 for 60 minute doors.
