

**FITTING INSTRUCTIONS**

**SPRING HINGE J9800**

# Fitting instructions

## SPRING HINGE J9800

### STEP 1

Fit first hinge 150mm from top of the door.  
Make sure adjustment hole is on the top.

### STEP 2

Position second hinge 150mm from the top hinge.

### STEP 3

Position third hinge 300mm from the bottom of the door.

### STEP 4

Place allen key into locator hole at the top of the hinge barrel and crank round until the desired tension is reached. There are 6 tension positions.

### STEP 5

Place the pin into the hole. Make sure you push it all the way in.

### STEP 6

Repeat step 5 with the bottom hinge. Make sure you make tension the same as the top hinge by cranking round to the same tension hole.

**NB: Leave the middle hinge unsprung**
